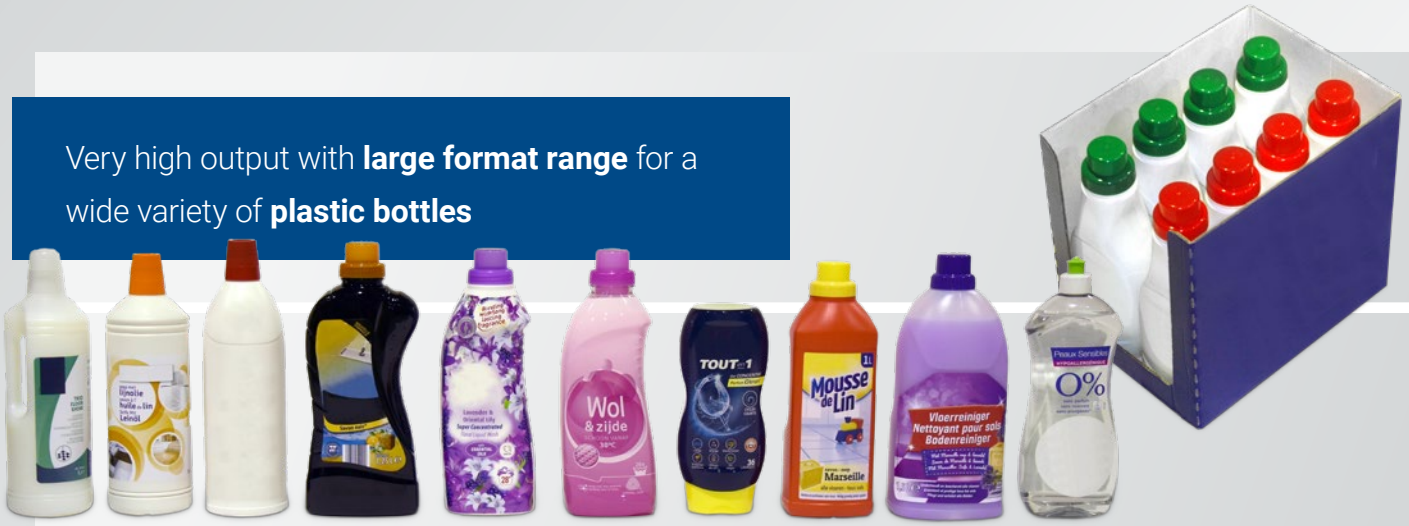
HOME & BODY CARE

Clean solutions for your end-of-line packaging

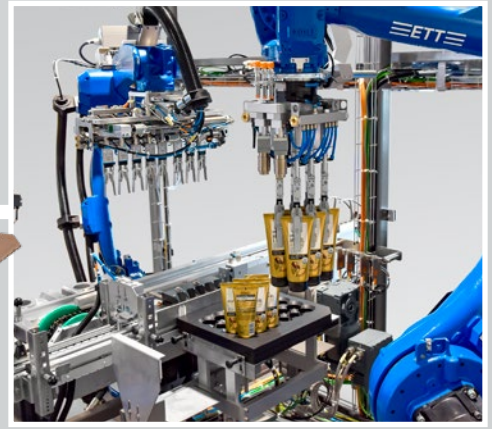
Very high output with **large format range** for a wide variety of **plastic bottles**



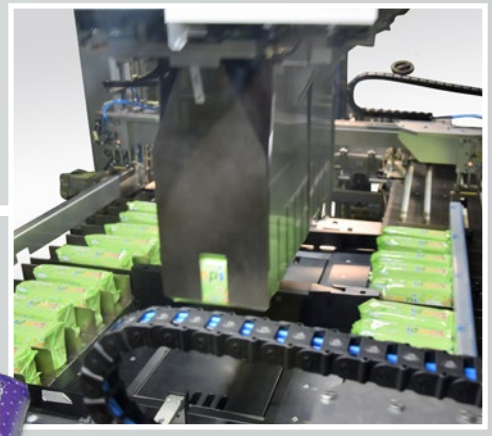
Safe handling with high performance even for **complex products**

Dynamic collation of **trigger bottles** incl. rotation and grouping

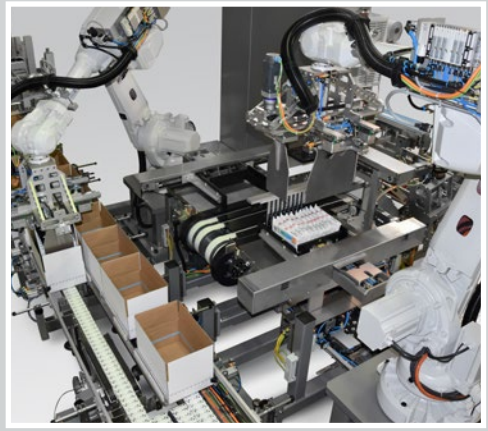
We also offer **flexible and economical concepts** for **lower performances**



High performance meets **huge range of formats** –
a job for the ETT Multistep collation



A wide range of **bag types** with
quick format changeover

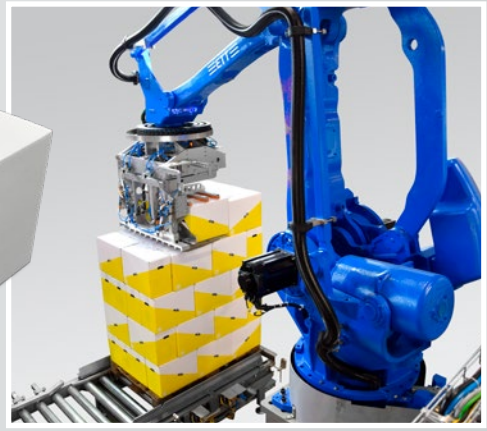


Row-by-row collation and **layer-by-layer insertion** for high production reliability

The **comb collation** as a **compact and economical solution** for medium outputs

Even **bags with solid or liquid contents** can be securely handled and packed

Once **palletised**, the products are **secured** on the pallet by a **wrapper**, for example



With our wide product range, we do not only have a suitable solution for your packaging task, but we also offer you flexible concepts for smaller outputs or even high-performance systems for your fast-moving items. With us, you are always with the best on the market. Test us!
