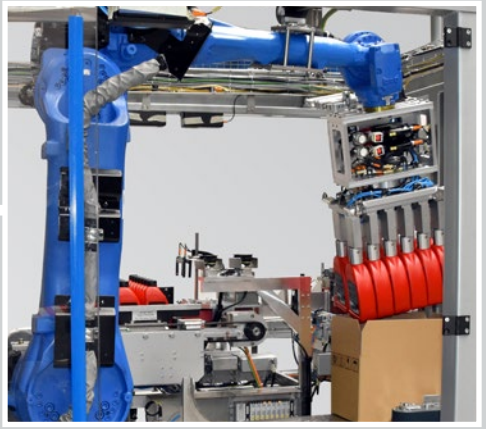
CHEMISTRY – MINERAL OILS

ETT & You – the perfect chemistry

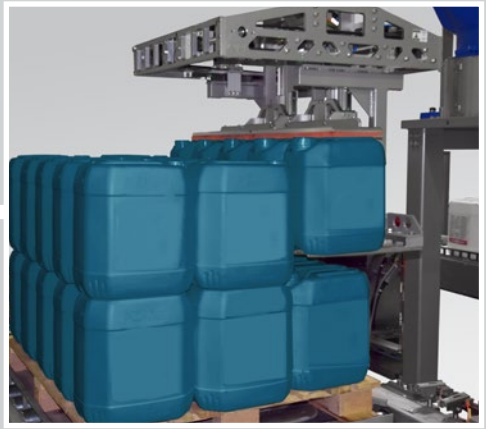
Highly dynamic and safe packaging of **canisters and bottles**

Fast changeover combined with a **high number of variants** – the ideal job for the ETT RoboBlock



Flexible palletising of a wide variety of packs – a strength of ETT concepts

Direct palletising of large packs – ETT's powerful robots provide the necessary support



High-performance handling of aerosol cans – on request also with application nozzles or spray tubes

Depalletising of empty product containers – another strength of ETT

Centring & pick-up of the products

Setting down on the bottle table

Merging for filling

With our wide product range, we do not only have a suitable solution for your packaging task, but we also offer you flexible concepts for smaller outputs or even high-performance systems for your fast-moving items. With us, you are always with the best on the market. Test us!
